

Formula RX sweeps French Team Trials

Team Hoyt
4/20/2010

Formula continues domination of events worldwide

The unbroken string of Formula victories in major competitions continued this week as Hoyt Formula Series shooters dominated the French team Selection event for the European Championship and first stage of the Archery World Cup.

With more than 70,000 registered target archers in France, making a World Team is no easy feat- but Formula RX has proven to be the winning combination for the top shooters of France this season.

Franck FISSEUX, fresh from his domination of the French national Indoor last month, took the top slot with his Formula RX/F4, with Hoyt's JC VALLADONT taking third. Not to be outdone, World Champion and World Record Holder Berengere SCHUH matched her male teammate's performance taking the top Women's position with her Formula RX/F4. In second position was Cyrielle DELAMARE, also using the Formula RX/F4.

As the outdoor season is underway, Formula shooters continue to dominate competitions worldwide, just as they did all indoor season.
